Merner-Pfeiffer Hall of Science
Reading, PA

This project includes the construction of a four story wrap-around addition to the existing Merner-Pfeiffer Hall of Science and the renovation of the existing historic building. The project will add 41,600 square feet of state-of-the-art lab space, classrooms and lecture halls. With the renovated space the new Hall of Science will encompass approximately 78,000 Square feet. The new addition has been designed to preserve the character and historical integrity
